--	---

### Flexible Scope

The flexible scope enables the Certification Body to include certification for the same or similar schemes against standards that are not specifically listed in this schedule, providing that:

- new revisions of product standards (where the product standard is already included in the denoted scheme) and the changes do not affect the technical requirements of the scheme and/or the competence requirements
- new standards that are technically equivalent to the standards already included under BSI Assurances UK Limited's accredited scope and where competence requirements for the new standard have already been demonstrated

The Flexible Scope is managed through in-house procedure PCP2220 – Managing Accreditation Scopes – Product Certification. This flexible scope does not currently extend to include certifications of UKCA or CE+UKNI (UKAB) regulatory schemes, the Building Information Modelling (BIM) scheme or Trust Service Provider schemes

Information about flexible scopes of accreditation is available in UKAS document GEN 4.

Product	Standard
<b>Plastic Pipes and Fittings (cont'd)</b>	
Plastics piping systems for non-pressure underground drainage and sewerage - Unplasticized poly(vinyl chloride) (PVC-U) - Part 1: Specifications for pipes, fittings and the system	BS EN 1401-1:2019
Plastics piping systems for non-pressure underground drainage and sewerage - Unplasticized poly(vinyl chloride) (PVC-U), polypropylene (PP), polypropylene with mineral modifiers (PP-MD) and polyethylene (PE): Specifications for manholes and inspection chambers in traffic areas and underground installations	ISO 13272:2011
Plastic piping systems for soil and waste discharge (low and high temperature) within the building structure. Unplasticized poly (vinyl chloride) (PVC-U) Specifications for pipes, fittings and the systems.	BS EN 1329-1:2014 + A1:2018
<b>Metal Pipes and Fittings</b>	
Copper tubes for water, gas and sanitation	BS EN 1057:2006 + A1:2010
Petroleum and natural gas industries — Steel pipe for pipeline transportation systems - Specification for steel pipe (21.3 mm to 1219 mm outside diameter) for operating pressures up to 7 bar	GIS L2:2018
Copper and copper alloys. Plumbing fittings. Press fittings for use with metallic tubes	BS EN 1254-7:2021
<b>Access Equipment</b>	
Mobile access and working towers made of prefabricated elements	BS EN 1004-1:2020 BS EN 1004-2:2021
Portable Ladders	AS/NZS 1892.1:1996 AS/NZS 1892.1:2018
