Voyager Place Maidenhead Berkshire SL6 2PJ	

Flexible scope enables FM Approvals Ltd to include certification for the same or similar schemes against standards that are not specifically listed in this schedule, providing that:

- New revisions of product standards (where the product standard is already included in the ISO/IEC17065 schedule) when the changes do not affect the technical requirements of the scheme and/or the competence requirements.
- New standards that are technically equivalent to the standards already included under FM Approvals Ltd's accredited scope and where competence requirements for the new standard have already been demonstrated.

The flexible scope is managed through in-house procedure QP385 for flexible accreditation scope, which defines the boundaries of technical equivalence, and the list of standards implemented under the flexible scope are detailed in FM Approvals document CM 007.

The flexible scope does not extend to include UKAB related activities as detailed in the Approved Body section of the schedule below.

Information about flexible scopes of accreditation is available in UKAS publication GEN 4.

DETAIL OF ACCREDITATION

Product	Standard
Where IEC or EN standards have exact equivalents in BS, EN, BS EN or ISA Standards, these BS, EN, BS EN or ISA standards are also included in the accreditation.	
Electrical and non-electrical apparatus, systems, devices and components for potentially explosive gas, dust or vapour atmospheres using the following protection concepts:	
Fire detection and fire alarm systems Control and indicating equipment	EN 54-2
Fire detection and fire alarm systems. Power supply equipment	EN 54-4
Fire detection and fire alarm systems. Heat detectors. Point detectors	EN 54-5
Fire detection and fire alarm systems. Flame detectors. Point detectors.	EN 54-10
Fire detection and fire alarm systems. Short-circuit isolators	EN 54-17
Fire detection and fire alarm systems. Input/output devices	EN 54-18
Explosion prevention and protection Basic concepts and methodology	EN 1127-1
Industrial Trucks	EN 1755
Group II engines for flammable gas and vapour atmospheres	EN 1834-1
