### Locations where certification activities covered by the above Accreditation Standard are undertaken

ExVeritas Limited Unit 16-18 Abenbury Way Wrexham Industrial Estate Wrexham LL13 9UZ United Kingdom

### Flexible Scope

Flexible scope enables ExVeritas Limited to include certification for the same or similar schemes against standards that are not specifically listed in this schedule, providing that:

- New revisions of product standards (where the product standard is already included in the ISO/IEC 17065 schedule) and the changes do not affect the technical requirements of the scheme and/or the competence requirements.
- New standards that are technically equivalent to the standards already included under ExVeritas Limited accredited scope and where competence requirements for the new standard have already been demonstrated.

The flexible scope is managed through in-house procedure OP-11-98 for flexible accreditation scope, which defines the boundaries of technical equivalence, and the list of standards implemented under the flexible scope are detailed in the Register of Flexible FoP-11-99.

The flexible scope does not extend to include UKAB related activities as detailed in the Approved Body section of the schedule below.

Information about flexible scopes of accreditation is available in UKAS publication GEN 4.

### **DETAIL OF ACCREDITATION**

Product	Standard
Explosion prevention and protection Basic concepts and methodology	EN 1127-1:2011 (withdrawn) EN 1127-1:2007 (withdrawn)
Explosion prevention and protection Basic concepts and methodology for mining	EN 1127-2:2014 EN 1127-2:2002 (withdrawn)
Group II engines for flammable gas and vapour atmospheres	EN 1834-1:2000
Group I engines for workings susceptible to firedamp and/or combustible dust	EN 1834-2:2000
Group II engines for flammable dust atmospheres	EN 1834-3:2000
Automatic nozzles for fuel dispensers	EN 13012:2012 EN 13012:2001 (withdrawn)
Non-electrical equipment for potentially explosive atmospheres:	EN 13463-1:2009
General Requirements	
Protection by flow restricting enclosures "fr"	EN13463-2:2004
Degrees of protection provided by enclosures (IP code)	EN 60529:1992 + A1:2000 + A2:2013 EN 60529:1992 + A1:2000 (withdrawn)
Protection by flameproof enclosure "d"	EN 13463-3:2005
Non-Electrical Equipment - Constructional Safety "c"	EN 13463-5:2011 EN 13463-5:2003 (withdrawn)
Protection by control of ignition source "b"	EN13463-6:2005
