Testing performed at the above address only		

DETAIL OF ACCREDITATION

Materials/Products tested	Type of test/Properties measured/Range of measurement	Standard specifications/ Equipment/Techniques used
MICROBIOLOGICAL CULTURE MEDIA Ready to use solid media	Performance testing of physical and microbiological parameters to support production quality of finished items for sale	Documented In-house methods in accordance with BS EN ISO 11133:2014+A2:2020 and in conjunction with Product Specifications
	<u>Microbial Performance Tests</u>	
Solid media	Evaluation of growth promotion on solid media (productivity and selectivity)	1) LM6.9 Qualitative performance testing for solid medium 2) LM5.13 Quantitative performance testing for solid medium
	<u>Physical Tests</u>	
Solid media	pH	LM3.5 pH using a pH meter
	Fill volume weight check	LM3.4 Fill volume weight check for solid medium
Solid media	Contamination check at 25°C and 37°C	LM3.6 Sterility test method for solid medium
