Accredited to
ISO 15189:2012

Schedule of Accreditation
issued by
United Kingdom Accreditation Service
2 Pine Trees, Chertsey Lane, Staines-upon-Thames, TW18 3HR, UK

**University College London Hospitals
NHS Foundation Trust**

Issue No: 003 Issue date: 04 December 2020

Testing performed at main address only

Materials/Products tested	Type of test/Properties measured/Range of measurement	Standard specifications/ Equipment/Techniques used
HUMAN BODY TISSUE AND FLUIDS (cont'd)	Examination of tissues to identify or exclude morphological and cytological abnormalities for the purposes of diagnosis (cont'd)	Macroscopic and Microscopic examination
Frozen Sections		In house documented procedures in conjunction with equipment as specified below: SU03 in conjunction with manufacturers instructions using Leica cryostat CM1950
FFPE slides prepared in house	Morphological assessment and interpretation / diagnosis	By microscopy with reference to: RE00X: Reporting Generic SOP RE00X1: The reporting of CSF samples RE00X2: The reporting of Biopsies RE00X3: The reporting of Peripheral Nerves RE00X4: The reporting of Muscle biopsies RE00X5: The reporting of intraoperative samples RE00X6: The reporting of Surgical Biopsies, temporal lobes RE00X7: The reporting of Surgical Biopsies Skin RE00X8: The reporting of molecular pathology results RE02: The reporting of post mortems RE04: The reporting of Degenerative specimen
Slides from tissue section, CSF, ocular fluid & body fluids	<u>Routine staining</u> Examination of tissues to identify or exclude morphological and cytological abnormalities for the purposes of diagnosis Identification of basophilic and eosinophilic structures	Documented in-house procedures in conjunction with manufacturers instructions with reference to: SOPs SM01 and ST20 using Leica ST5020 Multistainer, Leica ST5030 Coverslipper and Haematoxylin and Eosin stains

HUMAN BODY TISSUE AND FLUIDS (cont'd)	<u>Immunohistochemistry:</u> (cont'd)	In house documented procedures in conjunction with equipment as specified below:
Slides from tissue section, CSF, ocular fluid & body fluids (cont'd)	Examination of tissues to identify or exclude morphological and cytological abnormalities for the purposes of diagnosis. Detection of:	SOP IM22 in conjunction with manufacturers instructions using Ventana Benchmark and Discovery Ultrawith the following antibodies:
	Synaptophysin antigen	Synaptophysin (paraffin) Synaptophysin (cyto)
	Thyroglobulin antigen	Thyroglobulin
	Thyroid Stimulating Hormone	Thyroid Stimulating Hormone
	Toxoplasma	Toxoplasma
	TTF1 antigen	TTF1 (paraffin) TTF1 (cyto)
	Thyroid Stimulating Hormone	TSH
	Dementia classification	Ubiquitin
	Vimentin antigen	Vimentin
Slides from tissue section, CSF, ocular fluid & body fluids (cont'd)	Examination of tissues to identify or exclude morphological and cytological abnormalities for the purposes of diagnosis:	SOP IM22a in conjunction with manufacturers instructions using Ventana Discovery Ultra with the following antibodies:
	Rare muscle disease	Alpha-synuclein
	Sarcolemmal membrane of skeletal muscle	Alpha-dystroglycan
	Sarcolemmal membrane	Alpha-sarcoglycan
	Sarcolemmal membrane, dystrophy marker	B-Dystrglycan
	Sarcolemmal membrane	Beta-Sarc
		Beta Spectrin

Materials/Products tested	Type of test/Properties measured/Range of measurement	Standard specifications/ Equipment/Techniques used
HUMAN BODY TISSUE AND FLUIDS (cont'd)		
Slide preparations of frozen tissue sections of adult / paediatric muscle as stated		Documented in-house procedures by manual staining with reference to:
	<u>Staining of slides for analysis</u>	
Adult	Lipids	Sudan Black (SOP MU15)
Adult & Paediatric	Simple lipids	Oil Red O (SOP MU18)
	<u>Histochemistry</u>	
	Examination of tissues to identify or exclude morphological and cytological abnormalities for the purposes of diagnosis	
Adult & Paediatric	Nicotinamide Adenine Dinucleotide	SOP MU04
Adult	Succinic Dehydrogenase	SOP MU05
Adult & Paediatric	Cytochrome Oxidase	SOP MU06
Adult & Paediatric	Acid phosphatase	SOP MU08
Adult & Paediatric	Adenylate deaminase	SOP MU09
Adult	Adenosine triphosphate	SOP MU10
Adult & Paediatric	Combined cytochrome oxidase and succinic dehydrogenase	SOP MU19
Adult and paediatric	Phosphorylase	SOP MU07
Paediatric	Phosphofructokinase	SOP DL03
Paediatric	Menadione-linked-alpha-glycerophosphate dehydrogenase without substrate	SOP DL04
